PROFESSIONAL SUMMARY

I am an enthusiastic computer science student specializing in AI and ML with hands-on experience in web application development. I have led and contributed to student communities, organizing events, connecting peers with opportunities, and promoting an entrepreneurial mindset, which has strengthened my communication, leadership, and teamwork skills while continuously improving my technical and problem-solving abilities.

TECHNOLOGIES

Technical Skills: HTML, CSS, JavaScript, Python, C, Java.

Databases: MySQL, MongoDB.

Tools & Platforms: Git, GitHub, VS Code

Soft Skills: Communication, Public Speaking, Problem-Solving, Team Leadership

WORK EXPERIENCE

Google Student Ambassador

Aug 2025 – Dec 2025

GOOGLE GEMINI

Hyderabad, India

- Led 5+ workshops and 10+ seminars for 700+ students, acting as the primary liaison to promote Google's technical ecosystem. I grew the campus tech community by 400+ active members through strategic event management and networking. I provided actionable insights to shape future student initiatives and career programs

Web Development Intern

Sep 2025 - Dec 2025

MICROSYSLOGIC TECHNOLOGIES

Remote

- Driven and detail-oriented Web Development Intern with a strong foundation in front-end technologies and responsive design. Collaborated with cross-functional teams to architect and maintain high-performance web applications using HTML5, CSS3, and JavaScript.

PROJECTS

AtmaMitra | *React, Node.js, NLP*

[View Project](#)

- Engineered an empathetic web platform featuring a specialized chatbot designed to provide context-aware emotional support and spiritual guidance through Natural Language Processing.
- Developed custom sentiment analysis logic to detect high-stress prompts, enabling the agent to autonomously retrieve and present relevant Bhagavad Gita shlokas as philosophical solutions for users experiencing low moods.

Student Pathfinding Agent | *Agentic AI, LLM*

[View Project](#)

- Architected an Agentic AI system that functions as a personalized academic advisor, utilizing autonomous reasoning to map out career and learning paths tailored to specific student interests.
- Leveraged Large Language Models to analyze user goals and dynamically generate step-by-step roadmaps, including recommended skill acquisitions and project milestones that adapt in real-time based on feedback.

EDUCATION

Samskruti College of Engineering and Technology

2024 – 2027

Bachelor of Technology in Computer Science

GPA: 7.6 / 10.0

Samskruti College of Engineering and Technology

2021 – 2024

Diploma in Civil Engineering

GPA: 8.5 / 10.0
